The Ultimate Innovation in Container Lifting Technology

The CD-111 Series lifter is designed especially for facilities that need to lift and dump 2-Wheel Carts weighing up to 500 lbs. With discharge heights from ground level to 84", the CD-111 has a small enough footprint allowing it to be sited anywhere space is a concern. The CD-111 is available in both a stationary or portable configuration that can be moved and used everywhere.

- Lifts 2-Wheel Domestic and Euro Style Carts, 35 - 95 gal. (140 - 360 liters).
- Stand available in right or left hand configuration.
- Stationary or mobile (optional locking casters for mobile applications).
- Up to 45-degree Dump Angle for complete container emptying.
- Heavy-duty castor wheels.

Custom Adapters Available to Accomodate all Types and Sizes of Drums, Barrels, Baskets or any other Non-Standard Carts or Containers.
