## Newest and Most Advanced Series of Container Lifters

The CD-113S Lifter is designed to dump both 2-Wheel Carts and 4-Wheel Containers with variable widths weighing up to 1,500 lbs. Discharge heights vary from ground level to 84". Units are powered by hydraulic cylinders.

- Lifts standard 2-Wheel Domestic and Euro Style Carts, 35 - 95 gal. (140 - 360 liters).
- Lifts 4-Wheel Comb & Trunnion Containers (up to 290 gal. - 1100 liters).
- Lifts 4-Wheel Domestic (2-bar) Style Containers (up to 290 gal. - 1100 liters).
- Unique and versatile lifter designed for dumping waste or recyclables into compactors, shredders, crushers, or any other processing, transfer or material handling equipment.
- Stand must be bolted to compactor wall.
- Up to 45-degree Dump Angle for complete container emptying.
